| Phnom Penh, Cambodia

PROFILE

Computer Science student with hands-on experience in backend development, full-stack applications, and mobile applications. Skilled in Vue.js, Node.js, Flutter, and REST API development through real-world software and engineering projects. Passionate about building practical and user-friendly applications while continuously improving technical and problem-solving skills.

EDUCATION

Institute of Technology of Cambodia

- Information and Communication Engineering

Australian Centre For Education

- ACE General English Program level 7B
-

SKILLS

- **Programming Languages:** Java, Javascript, C/C++, Dart, SQL
 - **Frameworks & Libraries:** Node.js, Express.js, NestJs, Spring Boot, Vue.js, Flutter
 - **Database & Cloud:** PostgreSQL, MySQL
 - **Tools & Technologies:** Git, GitHub, Docker, Postman
 - **Language:** English (Good), Khmer (Native Speaker)
-

AREA OF EXPERTISES

- Flutter Development
 - Backend Development
 - Rest API Development
 - Web Development
-

PROJECTS

Conference Management System

Tech Stack: Java Spring Boot, Apache Tomcat, MySQL

- Developed a conference management system for handling event scheduling, participant registration, and session management
- Build backend functionalities using Spring Boot and implemented CRUD operations with MySQL

E-commerce Web application (E-shop)

Tech Stack: Vue js, Express js, Pinia State Management, Tailwind CSS, Sequelize ORM

- Developed a full-stack e-commerce web application with product browsing, authentication, and cart functionality
- Built REST APIs and managed database operations using Express.js and Sequelize ORM

NeaMeSocial

Tech Stack: Vue js, Nest js , Pinia, Postgres, Tailwind Css

- Developed a location-based social networking platform using Vue.js and Nest.js
- Built responsive and user-friendly interfaces with Tailwind CSS.
- Implemented state management using Pinia.
- Developed REST APIs and Intergrated PostgreSQL database.
- Created authentication, post management, commenting, and social interaction features.
- Collaborated in an Agile team enviroment using Git/GitHub.
